- x Advising has reviewed 179 Policy Applications, and Paul Schreier said this was a 60% increase.
- x Advising is currently reviewing and updating the Catalog, so notify Jennifer of any catalog updates.
- x Chris asked Jennifer to talk about online testing for students who are outside of Jacksonville on dates they are required to come to campus to take their face-to-face exams. Jennifer wants to put a footnote in the course schedule to indicate the in-person test times for online courses. Mark said it should be a requirement to put the in-person test dates on the course schedule like they do with hybrid classes (instead of a footnote) so the in-person test dates for DL online classes will show up during the registration

international issues are covered, and determine whether this meets the requirements for global awareness assessment.

- x The CCB summer schedule is \$100,000 over the allocated budget, and Chris explained to Dan Moon and Anne Hoover how CCB was projected to earn over \$540,000 for UNF over the summer. Dan and Anne want Chris to monitor enrollment, and Academic Affairs wants CCB to consider canceling any courses that are not paying for themselves, particularly if they are second courses and not required for graduation. Reham asked Chris to supply her with a revenue analysis of her courses with low enrollment. David would like to have a meeting with the dean, associate dean, and chairs over the summer to discuss strategy for scheduling classes for next summer
